

FAASTeam presents:

Summer Double Feature

Feature One: Non-Towered Airport Operations, recently there have been several fatal accidents that have involved airport traffic pattern operations. Non-Towered Airports pose additional threats to the operator. Use of standard traffic pattern practices can help mitigate the risks involved with these operations. Feature Two: Illegal Charters, there are many different variations of illegal charters. The so called "Flight Department Company" has become a much seen variant of the illegal charter that is misunderstood. Free food and soft drinks provided by the Poplar Bluff airport management!

Directions: Poplar Bluff Regional Business Airport Terminal Building.
Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.

A message from the National FAASafety Team Manager
